Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is a first office action in response to application no. 10/697,623 filed on October 30 2003 in which claims 1-16 are presented for examination.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-16 are rejected on the ground of nonstatutory obviousness- type double patenting as being unpatentable over claims 1-31 of U.S. Patent no. 6,704,359 to Bayrakeri et al.

Although the conflicting claims are not identical, they are not patentably distinct

from each other because the limitations of claims 1-16 of the present application are included in the claims 1-31 of the cited Patent.

Therefore, it is considered obvious that one skilled in the art at the time of the invention having US Patent no. 6704359 would have had no difficulty to modify the conditions and the claim language set in claims 1-31 of the cited US Patent in order to derive the limitations of claims 1-16 of the present application for the same purpose of encoding and using as a reference first portion the first portion of the first picture of one of the GOPs, and encoding the second portion of the remaining pictures of the GOP based on the reference second portion generated for the first picture in the GOP.

NOTE: The applicant is urged to review the claims of all co-pending applications in order to avoid the delay that a terminal disclaimer approval may cause.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fogg (US Patent no. 6782132) teaches video coding and reconstruction apparatus and methods.
